DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-61 drawn to an isolated nucleic acid comprising SEQ ID NO: 4, and a construct, vector, or cell containing said isolated nucleic acid, for example.

Group II, claim(s) 1-61 drawn to an isolated nucleic acid comprising SEQ ID NO: 5, and a construct, vector, or cell containing said isolated nucleic acid, for example.

The inventions listed as Groups I-II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The inventions are linked by the technical feature of any isolated plant promoter wherein said promoter is used for heterologous gene expression in transgenic plants.

The claims encompass fragments as small as a single nucleotide and thus any plant promoter would inherently comprise a "fragment" of SEQ ID NO: 4 or SEQ ID NO: 5.

However, this technical feature is not special because it does not constitute an advance over the prior art. Fraley teaches a 19S and a 35S promoter. (See US 5,858,742, Issued 1/99, Figures 1, 7).

Furthermore, the invention of Group I, a fragment of SEQ ID NO: 4, requires SEQ ID NO: 4, not required by Group II. The invention of Group II, a fragment of SEQ ID NO: 5, requires SEQ ID NO: 5, not required by Group I.

Art Unit: 1638

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
